

ecobee | SmartBuildings

Thermostat management software that delivers savings and comfort.

Improve your net operating income while providing a superior resident experience.

Save on energy and operational costs.

- Automatically increase energy savings in vacant units during summer and winter breaks with SmartBuildings' scheduling features.
- Important temperature alerts help you avoid costly repairs due to incidents like frozen pipes.

Offer a superior student experience.

- With an iOS and Android app, students can control their thermostat with their phone, tablet, or Apple Watch.
- SmartThermostat with voice control supports Spotify Connect, so students can listen to music through their thermostat's speakers.

Get control and visibility from anywhere.

- Use SmartBuildings and its mobile app to make global changes without entering students' suites.
- Use passcodes to limit usage and avoid thermostat tampering in common areas.

Extend the lifespan of your assets.

- Set temperature limits on thermostats to prevent inefficient use of equipment.
- Receive performance alerts to stay one step ahead of equipment failures.

ecobee | SmartBuildings

Smart that saves you energy.

Since launching the first ever smart thermostat in 2007, ecobee has saved customers enough energy to take every home in Las Vegas off the grid for a year.

17%

The amount of energy The Collier Companies have saved in their common spaces with ecobee SmartBuildings.

“Best Overall Smart Thermostat.”
tom's guide

“With ecobee SmartBuildings, I can check my thermostats from anywhere and schedule AC units to shut off through the mobile app.”

VP of Operations
The Collier Companies

Qualified system vendor of NYSERDA's Real Time Energy Management program.
